Revised 3/3/23 es

Google Play store: GeeseMedRPM   **iPhone App store: GeeseMedRPM**

Implementation of GeeseMed RPM

1. This program qualifies for only Medicare, Medicaid, and Managed Medicare or Medicaid insurance patients only.
2. Once patient is qualified then the consult provider will suggest one or more vital device(s) (Blood pressure cuff, Pulse Oximeter, Glucose meter, Weight scale, and IR thermometer).
3. Explain RPM consent form including all terms and complete form with insurance information and get signature of patient with date on it.
4. Download GeeseMedRPM app on the patient's phone using above QR code and check their Bluetooth is on.
5. Contact Your Healthcare Coordinator on 812-704-1006 or 812-503-0021 to enroll patient in RPM program and provide patient name, DOB, Gender, Phone#, and device(s) name, and serial# of each device.
6. Your healthcare coordinator will give you Client ID, Patient ID, Kit ID and email QR code with the patient's name. You provide this information to the patient to log into the GeeseMedRPM app.
7. Click on the device icon from the app and click the connect button to establish connection between the device and app.
8. Make sure the patient take knows they must take a minimum of one reading on each device(s) per day and at least 16 readings per month per device or we are required to discontinue the program for the patient.
9. If patient needs any help please contact 812-704-1006 or 812-503-0021

Please scan attached first page signed and completed consent form to Paula@MediVoxx.com and cc: ITsupport@MDofficeManager.com for billing.

***Your Health Care Coordinator will contact the patient if they do not see results in the GeeseMed EMR system or medical assistant. Or, provider will contact the patient to discuss monthly results, trends and current medical condition.
